Product Migration

The recommended replacement for the CLC97033 through -304 is the CLC97033-306. The CLC97033-306 offers an alternative P3 platform in a 4U high 19" rack mountable frame. The Software application must have a VxWorks OS kernel update. For more information about this alternative, please contact your local Moog office, or contact us through the contact details given below.
