RECOMMENDED LIFE CYCLE MILESTONES FOR MOTION SYSTEMS

AGE	SERVICES	DESCRIPTION
0-5 years	Maintenance and technical training	Initial implementation: introduction and technical training
6-10 years	Predictability services	Expansion, scaling utilization: preventive maintenance, spares, and obsolescence management for optimum uptime and performance
11-20 years	Life extension	Mid-life (electronics) upgrades, mechanical overhaul
20+ years	New system introduction	Introducing a new system phase. Contact Moog for renewal options.

The above table represents a recommended system for offering life cycle services. Each request will be assessed on a case-by-case basis.
